

Editor's Corner

With this issue, CPN completes its second decade. The editors wish to thank everyone for their support and patience. Our new administrative aide, Judith Valona has been handling all inquiries, mailing and orders since June, 1991. She has done a superlative job and has learned fast. Leo has resumed full-time editorial duties. Art North continues his fine job of mail list maintenance. Marilyn Medlin of the CSUF Public Affairs Office continues her fine work in desk top editing. Gordon Snelling continues to handle the Seed Bank. Please note some slight corrections to Gordon's address. Our printer, Kandid Litho, has done a great job in the final production of CPN. To all, thanks for a job well done and now on to 1992!

Enclosed with this issue, you will find a renewal envelope. These are included in all issues since a separate billing mailing would be more costly. If you have already renewed, please use the envelope for any communication with the Society or pass it onto a friend. Also note that the rates remain unchanged from last year, but that since July, 1991, all California members must now include 7.75% sales tax.

Special Notice

SEED BANK LOW ON SEEDS!

Gordon Snelling, Seed Bank Manager, says that CP seeds are in low supply. Please contact him as soon as possible about sending your excess seeds to the Seed Bank. **Reminder:** Gordon Snelling's (Seed Bank) new address: 300 West Carter Drive; Glendora CA 91740-5915; USA. Tel. 818/914-9641.

Correction on Source List for 1991: All payments for orders directed to Acid-Wetland Flora should be made payable to John Hummer.
