Goodbye Don

by

Joe Mazrimas, 329 Helen Way, Livermore, CA 94550

I would like to extend my thanks to Don for all the good and exciting times we had putting together a magazine that unites all of us in this CP adventure. Through the years we had some remarkable interaction despite the fact I never met Don personally. I will miss his insight and expertise on our favorite subject. Hopefully, he will not abandon us and we will read his words of wisdom in these pages in the near future.
